2.1

→ Agriculture and allied activities play an important role in the economic development of the State.

(2) There are many general problems in agriculture.

(3) So, to improve Agriculture Sector there are measure taken by Maharashtra government:

1) Distribution of quality Seeds at reasonable rate.

2) Increased number of outlets for fertilizers and pesticides.

3) Development of irrigation facilities.

4) Financial assistance as per requirements.

5) Creating awareness about agricultural information through the use of mass media for making agriculture a profit business.

6) Setting of (APMC), establishment of agro export zones, horticulture training centers, grading and packing facilities for effective distribution.

1) Electrification of agricultural pumps and efforts to provide 'electricity on demand'

2.2

→ ① Infrastructure is the basic requirement for economic development.

② A sound infrastructural foundation is the key of overall Socio-economic.

③ Infrastructure is classified into two parts:

A) Economic infrastructure

B) Social infrastructure

A) Economic infrastructure means production and distribution of goods and services for economic development.

④ Measures taken to develop economic Infrastructure are as follow

① Increasing installed capacity of electricity generation.

② Rural electrification, network improvement and programmes for energy conservation.

③ modified direct benefit transfer Scheme to LPG consumer in the State.

④ Metro Railway has Started at Mumbai and Nagpur.

⑤ Road development plan is implemented in the State with great target of 3.37 lakh km.

B1 Social infrastructure includes library, programme, education, public health, housing, drinking water and Sanitation.

Measure are taken to develop Social Infrastructure are as follow:

① Education :-

Education is the backbone of Social economic Infrastructure. education is an important aspect of human resource development. education is the priority at national as well as State level.

There are four level of education in our country.

- 1) Primary education
- 2) Secondary education
- 3) Higher education
- 4) others.

② Health Service :-

There are 1814 primary health centers and 360 community health centers in the State as on 31st march 2017. The government of Maharashtra has created three tier System and infrastructure. primary and secondary center includes sub district hospitals and district hospitals. Tertiary includes well equipped medical colleges are located in major cities.
